

SNOW REMOVAL POLICY

SAWYER PLACE CONDOMINIUMS

Sawyer Place's snow removal policy is outlined below. If you have additional questions, feel free to contact our manager, Jennifer Birkemeier at (502) 491-3550 or jennifer@cmaky.com.

Under 2”:

- Sawyer Place does not provide snow removal to the roads under 2”.
- Sawyer Place does not provide shoveling to driveways. If you choose to shovel yourself, please **do not use salt on the driveways**. (We were informed by the driveway company not to use salt for the first few years on the new concrete)
 - ***You are welcome to use kitty litter to keep it from being slick or ice melt with magnesium chloride. If you choose to use kitty litter, please make sure you sweep it off once the snow has cleared.***
- Sawyer Place will not clear the sidewalks at the entrance under 2”.

*Sawyer place has appointed a volunteer to be our designated snow contact. On the occasion of ice or certain snow falls under 2”, Sawyer place may treat with salt or ice melt even if under 2”. Please note this will be a decision made per occurrence and will take temperature, forecast and budget into account.

Over 2”

- Sawyer Place will provide automatic snow removal to roads.
- Sawyer Place will provide automatic shoveling to driveways and some common sidewalks including the sidewalks from the entrance to the first set of patio homes.

*Please note Sawyer Place will treat and remove snow once the event is completely over; we will not treat in the middle of an event.

CC Sawyer Place Policy for 2020-2021 Snow Season
